How to Install latest ESXi VMware Patch – آموزش نحوه نصب

To enable SSH go and select your host > configuration > security profile > services > properties > SSH.

Then connect via SSH and run this command:

```
esxcli software vib install -d /vmfs/volumes/datastore1/patch-directory/ESXixxxxxxx.zip
```

```
esxcli software vib install -d /vmfs/volumes/drobo/patches/ESXiESXixxxxxxx.zip
```

Reboot the host and leave the maintenance mode.
