How To List Users in CentOS 7?

Article Number: 121 | Rating: Unrated | Last Updated: Tue, Jan 31, 2023 at 3:01 PM

To get a simple list of usernames.

Enter the command given below:

```
cut -d: -f1 /etc/passwd
```

This command gives us a list of users assigned to this CentOS server including system users like:

root

daemon

operator

sshd

systuser

cpanel

clamav

dovecot
