

Check image width and height before upload with Javascript

Article Number: 29 | Rating: Unrated | Last Updated: Mon, Sep 21, 2020 at 6:03 AM

```
var _URL = window.URL || window.webkitURL;
$("#file").change(function (e) {
var file, img;
if ((file = this.files[0])) {
img = new Image();
var objectUrl = _URL.createObjectURL(file);
img.onload = function () {
alert(this.width + " " + this.height);
_URL.revokeObjectURL(objectUrl);
};
img.src = objectUrl;
}
});
```
